## EDUCATION

### The University of Chicago

MS in Computational Analysis

Chicago, IL

*Expected June 2026*

- Concentration: Data Science & Financial Analytics
- Teaching Assistant: Real Estate Investments I & II

### Institute of Business Administration

BS in Accounting & Finance

*June 2018*

- Courses: Financial Modeling, Corporate Finance, Security Analysis, Fixed Income Investments, and Portfolio Management

## PROFESSIONAL EXPERIENCE

### Booth School of Business

Chicago, IL

#### Research Analyst

*December 2024 - Present*

- Provided research assistance for a Chicago Booth [working paper](#) on CRE tax policy; built a multi-scenario tax model analyzing carried interest taxation for GPs and LPs across 25 sensitivity scenarios, results show that taxing carried interest at ordinary income rates (40%) would increase GP effective tax rates by 6.85 pp while more severely impacting LP after-tax returns
- Developed and maintain [CREATE](#), an applied real estate finance hub at Chicago Booth, translating academic research and market data into practical, simulation-ready tools and interactive dashboards for professionals and students; spanning credit market analysis, asset market valuation, levered equity modeling, optionality and capital-stack simulation

### Central Bank of Pakistan

#### Senior Analyst

*October 2019 - August 2024*

- Analyzed industry-wide, borrower-specific, and bank-level credit data to identify underperforming banks, facilitating discussions with bankers on key borrowers under stress for their resolution
- Oversaw wind-down of SME Bank; monitored liquidity, disbursed PKR 5.5 Bn to depositors, managed strategic layoffs of 250 employees and closure of 13 branches, preventing PKR 1 Bn annual loss to national exchequer
- Led data-driven investigation into FX excessive spreads charged to trade customers across six banks; prepared presentations for policymakers and senior bankers, communicating complex findings to non-technical audiences, resulting in a report to the Prime Minister's Office and PKR 1.34 Bn in penalties on banks

### JS Bank

#### Investment Banking Analyst

*June 2018 - October 2019*

- Played a key role in the issuance of a PKR 7 Bn Additional Tier 1 capital instrument; created the investor prospectus, coordinated the preparation and issuance process, and supported investor-facing communications; the issuance was ultimately oversubscribed
- Prepared and presented investment analysis for a capital markets roadshow to institutional investors, translating complex financial data across 700+ companies into clear, investor-ready materials

## PROJECTS

- [Migration Dashboard](#): Built an interactive dashboard analyzing U.S. migration patterns across states and counties, allowing users to filter by demographic and economic data to identify population trends; selected as a top 10 finalist in the UChicago Mind Bytes Data Visualization Challenge 2026
- [Leverage & Vulnerability in COVID](#): Replicated and extended Mian & Sufi (2010) using county-level data, analyzing household leverage ratios and their relationship to economic vulnerability during COVID through regression and econometric techniques; applied findings to assess debt-driven risk indicators across real estate markets
- [Detroit Housing Challenges](#): Co-authored a policy memo analyzing Detroit's housing market, examining affordability gaps and supply constraints; built a data appendix using Census and housing data to quantify rent burdens, vacancy structure, and income trends, informing policy trade-offs for economic revitalization
- [Demographic Dashboard](#): Built an Excel dashboard integrating live data from U.S. Census and BLS APIs using Power Query, tracking labor market and demographic trends relevant to real estate demand fundamentals

## SKILLS & CERTIFICATIONS

- Financial Modeling, Sensitivity/Scenario Analysis, VBA, Power Query, Real Estate Data Platforms (NCREIF, Green Street, Zillow, Census, BLS, etc.), Advanced Excel, Python, SQL, R, Bloomberg, Power BI, Data Visualization
- Financial Risk Manager Part - 1 (Global Association of Risk Professionals)
- CFA Charter Holder (CFA Institute)

*May 2022*

*December 2020*
