Booth School of Business

Chicago, IL, USA

Research Analyst

December 2024 – Present

- Built financial and analytical models using Excel/VBA to evaluate feasibility and performance trends for real estate and economic analysis initiatives
- Summarized analytical findings into structured reports and [digital content](#) used in decision-support and research deliverables

Central Bank of Pakistan

Bank Examiner

October 2019 – August 2024

- Advocated for SME Bank's closure, which led to approval of winding down, in implementation phase, closely monitored liquidity, efficiently disbursed Rs. 5.5Bn to depositors, and optimized costs through strategic layoff of 250 employees and closure of 13 branches, preventing an annual Rs. 1Bn loss to national exchequer
- Led an investigation team overseeing inspections of six banks over alleged excessive spreads charged by banks from trade customers, resulting in a report submitted to the Prime Minister's Office and a subsequent penalty of Rs. 1.34 Bn on banks
- Conducted a thorough investigation of card-based cross-border transactions, as part of AML/CFT inspection at Bank Alfalah, revealing undisclosed foreign flight of FX, prompting industry-wide regulatory action, in form of circulars and inspections at multiple banks, reshaping regulatory landscape for card-based cross-border transactions of USD 1 Bn annual FX outflow
- Performed on-site inspections for Benazir Income Support Program (BISP), a Rs. 364 Bn federal unconditional cash transfer poverty reduction initiative, in most vulnerable and underdeveloped cities/rural areas of Pakistan, guiding banks on system controls to reduce human interaction and mitigate fraud risks
- Conducted a comprehensive on-site assessment of LOLC Microfinance Bank, reached out to vulnerable borrowers of small cities and informal settlements, gathering grievances and potential instances of fraud, documenting these insights in a report, this directly led to identifying and reversal of Rs. 33 Mn in excess mark-up erroneously collected from 90,996 borrowers
- Conducted on-site evaluations of banks' products and services, assessing their design and implementation to identify vulnerabilities, and provided directives/recommendations to mitigate risks, which were ultimately appreciated by the banks

JS Bank

Investment Banking Analyst

June 2018 - October 2019

- Built financial models, supported due diligence, and consolidated financial information for the oversubscribed Rs. 7 Bn ADT1 issuance, informing forecasting and financial planning decisions
- Analyzed financial statements of 700+ companies to identify performance issues, assess trends, and support reporting for portfolio-level evaluations
